

Vocabulary and pictures for children:

Planes

Bicycles

Buses

Trains

Tractors

Ships

Hot air balloons

Helicopters

Possible tasks and key questions for children to discuss with adults:

- Can you name some methods of transport? Which are the fastest and which are the slowest?
- Can you talk about which methods of transport can go on land, in water and in the air? Are there any that can do more than one of these things?
- Try to draw a picture of some form of transport and write what it is underneath.
- Can you use a non-fiction book (fact book) to look at facts about transport?
- Can you imagine that you are going on a train ride... what might you see out of the window on your journey?
- Explain to a grown up how we stay safe around a road and by the water.
- Create a map of your journey from one place to another (e.g. home to school). Which features do you see everyday?
- Can you read a story book about transport and then act it out?
- Create some number problems (e.g. There are 8 trains, 2 go into a tunnel... how many are left outside?)
- Can you build a lego model of some transport and then give someone some step-by-step instructions for how to build one?
- Can you sing any songs about transport or journeys?

Key vocabulary – Can you help your child to be able to explain what these words mean?
