

## Complete these calculations.

1  $25 - 9 = 16$

$65 - 9 = 56$

2  $47 + 6 = 53$

$77 + 6 = 83$

3  $39 + 3 = 42$

$89 + 3 = 92$

4  $22 - 7 = 15$

$72 - 7 = 65$

5  $53 + 8 = 61$

$83 + 8 = 91$

6  $45 + 6 = 51$

$85 + 6 = 91$

7  $28 - 9 = 19$

$68 - 9 = 59$

8  $48 + 7 = 55$

$78 + 7 = 85$

9  $21 - 8 = 13$

$61 - 8 = 53$

10  $44 + 7 = 51$

$74 + 7 = 81$

Now try these.

11  $36 + 3 = 39$

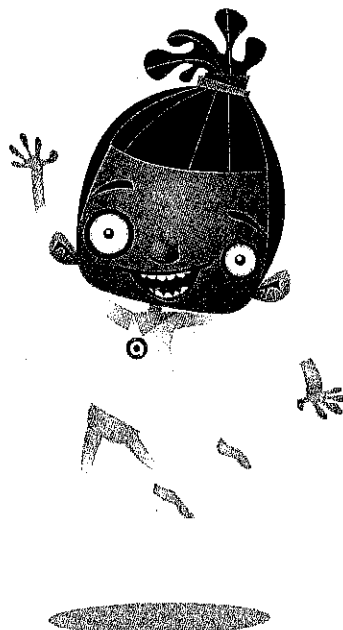

12  $59 - 8 = 51$

13  $32 + 7 = 39$

14  $48 - 6 = 42$

15  $48 + 6 = 54$

16  $24 + 8 = 32$

I am confident with adding and subtracting 1-digit numbers.
